JSON  
RESTful Web Services  
HTTP  
MVC Architecture  
Functional Programming  
Procedural Programming

## About me

I started my professional journey focusing my studies on frontend development, exploring technologies such as JavaScript, React, HTML, Bootstrap, and CSS. As I progressed, I expanded my skills towards backend development, studying Java, Spring Boot, Hibernate, and SQL, thus building a solid programming foundation.

Currently, I work as a junior full stack developer on B2B projects using the Liferay Commerce platform. In this role, I integrate my frontend and backend skills utilizing Java, OSGi, JSP, React, Bootstrap, and Freemarker. My experience includes developing and implementing effective commerce solutions tailored to the specific needs of businesses.

## Employment History

### Junior Developer (Full Stack), SMC, Sesto San Giovanni

SEPTEMBER 2023 – PRESENT

**Specialization:** Liferay Commerce for B2B platforms.

- **User Interface Creation:** Using React JS to develop user interfaces.
- **Implementation of MVC Portlets** for Liferay applications, using Java, JSP, Gradle.
- **Creation of Email Templates** with Freemarker.
- **Issue Resolution and Code Optimization:** Ensuring the optimal functioning of applications.
- **Tools:** Using IntelliJ IDEA Ultimate, GitLab.

### Cedic Srl, Peschiera Borromeo, Italy;

JUNE 2020 – SEPTEMBER 2021

I produced medical devices and components that enhance patients' quality of life. Full time

### DHL, Liscate, Italy

JUNE 2019 – JULY 2020

At DHL, I performed picking, expedition, and packaging duties, gaining expertise in logistics management and ensuring timely delivery.

### LSG, Tavazzano, Italy

MARCH 2014 – JUNE 2019

During my 4-year tenure at LSG, I worked in the production of various items for multiple stores. I collaborated with my team members to ensure that our products met high standards of quality and consistency.

## Education

### ACADEMY JAVA FULL STACK MILANO

JUNE 2023 – AUGUST 2023
